"earlier, better, together".

Lincolnshire  
COUNCIL  
*Making for a better future*

**WE LOOK FORWARD TO SEEING YOU AS PART OF THE INITIAL NETWORK  
THAT WILL BE SUPPORTING THE DEVELOPMENT OF FAMILY HUBS  
ACROSS LINCOLNSHIRE.**

## What are we wanting to achieve?

The role of Family Hubs will be to provide and/or co-ordinate access to universal related support and specialist services within a 'welcoming and accessible' environment. The intention will be to support families to be resilient, self-reliant and independent whilst having the help when they need it in a timely and appropriate way. This will require us to build relationships, connect with people, and keep these relationships going. At times we may need to ask questions in a slightly different way to understand someone's experiences so that they can get the right help at the right time.

## Why Restorative Practice?

The approach is a way of working that will support children young people, networks families and carers no matter who you work for, its a common language that unites everybody. These sessions begin this process.

## What are the dates and venues?
